

DSCA Site Status Definitions

Petitioned - The DSCA Program is in the process of reviewing an application to certify the site.

Certified - The DSCA Program has entered into an agreement with a petitioner and is in the process of assigning a state-hired, independent environmental contractor to conduct a prioritization assessment.

Assessment - The DSCA Program's independent environmental contractor is currently determining the extent of soil and groundwater contamination at the site.

Monitoring - The DSCA Program's independent environmental contractor is currently monitoring the levels of contaminants in the groundwater.

Remediation - The DSCA Program's independent environmental contractor is currently performing cleanup at the site.

Interim Action - Site conditions are favorable for source removal or conducting a pilot study for remediation.

Emergency - The DSCA Program has determined there is an immediate need for corrective action to abate a potential hazard to human health or the environment.

On Hold - Please contact the site's project manager for more details.

Closure - The extent of contamination has been defined and is considered stable. The DSCA Program is in the process of developing and implementing a risk management plan to protect human health and the environment from remaining contamination.

NFA - No Further Action Required.
